BWM-IMO Implementation Update – April 2017

Leading up to the 71st Session of the MEPC on July 3-7, 2017, a compromise implementation scheme for ships constructed before September 8th, 2017 has been proposed by Brazil, the Cook Islands, India, Liberia, Norway and the United Kingdom and released by IMO on April 24th, 2017. The compromise proposal will essentially be treated equally with the two current options While the compromise implementation scheme is still related to the completion date of the MARPOL Annex I IOPP initial or renewal survey, as illustrated in MEPC 71/4/12 Schematic the D-2 compliance dates are different from the two current options.
